APTI 435: Atmospheric Sampling Course

# Lab Manual

# Table of Contents

Laboratory 1: Calibration of a High-Volume Sampler .....	1-1
1.1 To the User of this Manual .....	1-1
1.2 Laboratory 1: Introduction .....	1-5
1.3 Experiment 1: Reference Method Calibration of a High-Volume Sampler .....	1-5
1.4 Experiment 2: Reference Flow Device Audit .....	1-14
1.5 Experiment 3: Constant Flow High-Volume Sampler Check ...	1-21
1.6 Problem Set: Laboratory 1 .....	1-26
Laboratory 2: Flow Measuring Instrumentation .....	2-1
2.1 Introduction .....	2-1
2.2 Experiment 1: Calibration of a Wet Test Meter .....	2-2
2.3 Experiment 2: Calibration of a Mass Flow Meter .....	2-11
2.4 Experiment 3: Calibration of a Rotameter at Reduced Pressure .....	2-17
2.5 Experiment 4: Calibration of a Limiting Orifice and Investigation of Factors Affecting Flow .....	2-21
Laboratory 3: Calibration of a PM <sub>2.5</sub> Sampler .....	3-1
3.1 Introduction .....	3-1
3.2 Experiment 1: External and Internal Leak Checks .....	3-3
3.3 Experiment 2: Temperature Sensor Calibration .....	3-8
3.4 Experiment 3: Barometric Pressure Sensor Calibration .....	3-21
3.5 Experiment 4: Flow Measurement System Calibration .....	3-25
Appendix A: Laboratory Report Format.....	A-1
Appendix B: Graph Paper .....	B-1
